## CERTIFICATE OF STABILITY

Name of the Society / College: Jagdamba Education Society's S. N. D. College of  
Engineering & Research Center

Address : Babhulgaon, Tal: Yeola, Dist: Nashik.

I certify that I have inspected the building of the **S. N. D. College of Engineering & Research Center, Babhulgaon** structure, the plans of which have been approved by the Asst. Director, Town & Planning Department, Nashik vide their letter No.1577 dated 10/06/2016 I have done the Structural Audit based on the visual inspection of the accessible parts / areas of the building. Based on the visual observations, visual symptoms & manifestations shown by the structure and the data collected from site, I am of the opinion that the said structure / building is structurally sound and that its stability will not be endangered by their use as a residential / commercial for which structure / building is intended. A detail Structural Audit report covering details about structure, site observations along with photographic survey is attached with this certificate.

This certificate will come in force only after, conducting detail investigation such as Non Destructive Tests, soil investigation, repairs, strengthening, retrofitting or any other measures required are carried out to make the building / structure safe, as recommended in the attached structural audit report if any. If structures shows any signs / symptoms / manifestations of any distresses such as, cracks, corrosion of reinforcement, spalling of concrete, deflection / sag in any structural members / walls, settlement of foundations / floors / ground, leakages etc.; after submission of this structural audit report, it shall be immediately brought to my notice. If found

necessary, the structure may be inspected again and validity of this stability certificate may be modified if required.

This Certificate is valid for a period of maximum Ten years and is issued on the clear understanding that my overall responsibility for the structural stability of the building and its proper structural performance will cease, the moment any additions or alterations, change in loads, structural changes to the structural frame are carried out without any structural engineer's advice or by accident or due to tampering by the users/ occupants for any reasons whatsoever. This certificate ceases in the event of overloading or lack of proper maintenance of structure or distress / unbalance caused by any adjoining structure or construction activity or any such act, which is detrimental to the structure.

Further this certificate do not guarantee stability of the structure, if there are any inbuilt deficiencies, faults in original structural design / detailing and construction quality or workmanship of the said building; including incorrect assessment of bearing capacity of the strata on which foundations are resting & possibility of settlement, incorrect assessment of water table and its effects etc. at the time of construction. The stability of the structure is assessed only for dead and live load and that too, based on the visual observations of superstructure and it do not cover any risk arising due to earthquake, wind, fire, vibrations etc. and any other unforeseen forces causing distress and instability to the structure.
