About the Faculty Development Program

This FDP will encourage faculty members to create a competitive teaching and learning environment in addition to promoting professional practices pertinent to technical education. This will channelize development in terms of both personal and academic matters. The FDP includes 10 different sessions focusing on all aspects of innovative practices in the teaching learning process. While designing the curriculum of FDP, we taken care of actual requirement of effective teaching learning process which will help future upcoming conduction of NEP- 2020. The experts are well qualified and experienced from different renowned institutions from all over India. Hence we are sure, delegates will get benefited.

Who can Participate

The FDP is open to all Faculty members of Engineering and Polytechnic Colleges, Research Scholars, Post Graduate Students and Professionals from Industries.

About JES

Jagdamba Education Society (JES) was established in the year 1992 with the mission of imparting the quality education to all sections of the society. The objective of JES is to establish centers of excellence for education in the field of Engineering, Medical, Pharmacy, Management, Agriculture, etc. The JES is running 20 different institutes and today known as a renowned educational organization in the country.

About The Institute

SND College of Engineering & Research Center, Babhulgaon established in 2006-07, is located in Yeola. Yeola is one of the Taluka in Nashik district of Maharashtra. The institute is approved by AICTE and affiliated to Savitribai Phule Pune University and also accredited by NAAC B++ Grade (ISO 9001:2015). The campus is spread over natural landscape of 150 Acres. The site is very healthy and beautiful & being away from city atmosphere & is free from pollution. The institute has its focus on quality education through academic excellence. The institute's learning experience is characterized by systematic methodology integrated with the team of well educated and dynamic faculties. The institute has 52 well equipped laboratories and ICT Classrooms for developing the academic excellence of the students. The institute presently offers undergraduate and postgraduate courses with 7 disciplines having total intake of 615. In the short span time the institute has strived not only to give the best engineering education to our students under some of the most erudite and well-respected faculty, but also to integrate their knowledge in state of art equipped laboratories.
